

AREAS OF EXPERTISE

Server environment

- Linux (Ubuntu, Debian)
- Apache
- Mysql
- PHP
- phpMyAdmin
- nginx
- Docker containers

Programming languages

- PHP5
- MySQL
- HTML5
- CSS

PHP Frameworks

- Symfony2
- CodeIgniter

Frontend related technologies

- jQuery + jQuery UI
- Twitter Bootstrap
- Twig
- Assetic

Cloud services

- Rackspace services
- Mandrill, Mailgun
- Digitalocean

Payment Processor Integration

- Sagepay
- Worldpay

VOIP

- Asterisk 11 (AGI, AMI, Fastagi)

Applications / environments

- Kanban flow / Trello
- PHPStorm / Eclipse

My experience also includes

- GIT (GitHub, BitBucket), SVN
- Bash scripting
- Markdown / PHPDOC
- Datamax Label Printers

Learning goals

- Redis
- CoreOS
- NodeJS
- Kmailio
